+ Going Green Cleaning to benefit cancer patients

Cleaning For a Reason is the nation's first non-profit organization dedicated to providing free house-cleaning services for women undergoing cancer treatment. The service will now be available in Palm Coast, thanks to a recent partnership with Going Green Cleaning Services Inc. of Palm Coast.

As of September, nearly 4,000 women have been helped and about \$995,000 has been donated in cleanings, all thanks to about 740 cleaning partners throughout the country.

Going Green will be the first company to reach out to Palm Coast patients.

"I would like to invite all the clean-

ing companies in the area to do the same," said Lauren Miranda Garrido, general manager. "This is about the women in our community that are in need of a helping hand. It is very rewarding to know that, by the end of the day, you helped somebody; and that makes you really happy."

Going Green Cleaning Services provides residential and commercial cleaning in Flagler County and the surrounding areas. They use only eco-friendly and non-toxic cleaning products.
